- iii. Notwithstanding the above, if required by applicable law, the Company shall deduct at source from any payments due to the Client, such amounts as are required by the tax authorities to be deducted in accordance with applicable law.
- iv. It is possible that other costs, including taxes, relating to transactions carried out on the Trading Platform may arise for which the Client is liable, and which are neither paid via the Company nor imposed by the Company. Without derogating from the Client's sole and entire responsibility to account for tax due, the Client agrees that the Company may deduct tax, as may be required by the applicable law, with respect to the Client's trading activity on the Trading Platform. The Client is aware that the Company has the right to set-off against any amounts in the Client's Trading Account with respect to such tax deductions, and the Client hereby authorises the Company to withdraw amounts from his Trading Account with which to pay such taxes. The Client shall have no claim against the Company with regard to such deductions. The Company further agrees that such deductions do not derogate from the Company's rights to make Margin Calls under the Agreement.
- v. The Client undertakes to pay all stamp expenses relating to the Agreement and any documentation which may be required for the currying out of the Transactions under this Agreement.

- vi. It is hereby clarified that subject to the terms of the Agreement, the Difference is the only payment required by the Client for the provision of services. Notwithstanding the above, the Company reserves the right to charge additional fees or charges in the future, upon one month's prior notice. The applicable fees or charges from time to time may be found on the Company's The Company site. The Company may vary its fees from time to time. The Company will send a Written Notice to Clients informing them of any changes, before they come into effect. The variation will take effect from the date which the Company specifies in its notification to the Client.
- vii. Should the Client's country of residence operate regulations or laws which restrict the use of currency or require the Client to report receipts and payments of that currency to a regulator or legal authority, the Client agrees that he will fulfil any reporting obligations or obtain any required consents or approvals which may arise as a result of the Client's use of the Trading Platform or associated transactions.
- viii. Prior to opening an account with the Company, the Client needs to consider any applicable charges such as spread(s), mark-up(s), commission(s), and swap(s). The Client is solely responsible for requesting clarifications from the Company in relation to the above, if necessary. The Client may review all applicable charges, prior to entering into an agreement with the Company as well as at all times, on the Company's website(s).

The Client should note that not all charges are represented in monetary terms and may appear, for instance, in pips; therefore, the Client needs to ensure that he/she understands the cost that the pip amounts to.

The Company reserves the right to charge a monthly maintenance fee per account assuming that the account has sufficient funds to cover such fee. This maintenance fee depends on the Client categorization and/or type of Trading Account and/or volume of Orders and/or amount of deposits. The applicable maintenance fees may be found on the Company's The Company site.

The Client should note that any applicable charges shall be instantly deducted from his/her Account(s).

GENERAL RULES OF TRADING

Without prejudice to any other provisions herein of the Agreement, once the Client places an Order on the Trading Platform, the Company arranges for the execution of the said Order with the Execution Venue. It is understood that the Company does not execute the Client Orders in CFDs as a principal to principal against the Client, i.e. the Company is not itself the Execution Venue for the execution of the Client Orders.

The Client acknowledges and agrees that each Transaction conducted on the Trading Platform, is comprised of first an offer by the Client to the Company to complete a Transaction (whether such offer is to open a Position or close an Open Position) at a certain price quoted on the Trading Platform, and the Company's subsequent acceptance of the Client's offer. An Offer will be deemed to have been completed only when it has been received and accepted by the Company. The Company's acceptance of an offer will be evidenced by the Company's confirmation of its terms to the Client and its completion.

The Client may request to cancel or amend a Transaction at any time, prior to the Company completing such a Transaction.

The Company reserves the right to void from the outset any Transaction containing or based on any Manifest Error. In the absence of the Company's fraud or willful default, the Company will not be liable to the Client for any loss, cost, claim, demand or expense following any Manifest Error.

The Client acknowledges that all of the Company's prices and Quotes shown on the Trading Platform are the ones provided by the Company's Execution Venue. The Execution Venue obtains prices (BID and ASK prices) of the Underlying Asset for a given CFD from third party reputable external reference the Company's (i.e. price feeders). The Execution Venue then uses these prices to calculate their own tradable prices for a given CFD and provide them to the Company.

The Client shall comply with any restrictions that the Company notify the Client from time to time with respect to the Client's activities on the Trading Platform, including without limitation, the size of Transactions or other conditions that may apply to the Company's quote. The Client acknowledges that the Company may offer to and impose on each user, in the Company's sole and absolute discretion, different terms and restrictions with respect to their use of the Trading Platform.

The Client acknowledges that the Trading Platform is independent of any Underlying Markets, and the Company is under no obligation to quote a particular price or follow the trading rules consistent with such Underlying Markets. The Client further acknowledge that the triggering of the Client's Transaction is linked to the prices the Company quote on the Trading Platform, not the prices quoted on the relevant Underlying Markets. In determining whether the prices quoted on the Trading Platform reach or exceed the price accepted by us in a Transaction, the Company will be entitled (but not obliged), in the Company's absolute discretion, to disregard any prices quoted by the Company during any pre-market, post-market or intra-day auction periods in the relevant Underlying Markets, during any intra-day or other period of suspension in the relevant Underlying Markets, or during any other period that in the Company's reasonable opinion may give rise to short term price spikes or other distortions.

When the Client completes a Transaction on the Trading Platform, the Client agrees that the Client are not dealing on a recognized exchange.

The Client undertakes and agree not to use the prices quoted on the Trading Platform for any purpose other than for the Client's own trading purpose, and the Client agree not to redistribute the Company's prices to any other person whether such redistribution is for commercial or other purposes.

The Client acknowledges that each Transaction is made for a specified number of units that constitute the Underlying Asset. The Client may only complete Transactions on the Trading Platform for the minimum number of units as set forth on the Trading Platform as the "Unit Amount", and in multiples of such "Unit Amount" up until the maximum amount permitted by the Trading Platform. The Client acknowledges and agrees that the Company may set, in the Company's sole and absolute discretion, the "Unit Amount" for each Underlying Asset.

Each Position opened by the Client, and any Transaction completed, will be binding on the Client notwithstanding that by opening the Position the Client may have exceeded any credit or other limit applicable to the Client or in respect of the Client's dealings with the Company.

The Client may request a Quote to open or close a Position for a particular Underlying Asset, at any time during the Trading Hours for such Underlying Asset. The Company will be under no obligation to, but may, in the Company's absolute discretion, provide a Quote and accept and act on the Client's offer to open or close a Position for an Underlying Asset outside of the Trading Hours of such Underlying Asset. In some cases, Transactions may only be traded during the time when the relevant

Underlying Market is open. Trading Hours are displayed on the Trading Platform under the details link for each specific Underlying Asset. It is the Client's responsibility to ensure that the Client is aware of which Underlying Asset may be affected.

Without prejudice to any of the Company's right hereunder, if, prior to the acceptance of the Client's Order to open or close a Transaction, the Company becomes aware that any of the factors set out in paragraph 7.14 herein have not been met, the Company reserves the right to reject the Client's Order outright. If the Company has, nevertheless, already opened or closed a Transaction prior to becoming aware that a factor set out in paragraph 16.14 herein has not been met, the Company may, in the Company's and absolute discretion, either treat such a Transaction as void from the outset or close it at the Company's then prevailing price. However, the Company may, in the Company's absolute discretion, allow the Client to open or, as the case may be, close the Transaction in which case the Client will be bound by the opening or closure of such Transaction.

The factors referred to in paragraph 7.13 include the following:

- the quote must be obtained via the Trading Platform or by such other means as the Company may from time to time notify the Client.
- the Client's offer to open or close the Transaction must be given while the quote is still valid.
- the quote must not contain a Manifest Error.
- when the Client offers to open a Transaction, the number of units in respect of which the Transaction is to be opened must be neither smaller than the minimum unit amount specified on the Trading Platform for the Instrument, as applicable, from time to time, nor greater than the amount permitted in accordance with the terms of this Agreement.
- when the Client offers to close part but not all of an open Transaction both the part of the Transaction that the Client offers to close and the part that would remain open if the Company accepted the Client's offer must not be smaller than the minimum unit amount specified on the Trading Platform.
- Force Majeure Event must not have occurred when the Client offers to open or close a Transaction.
- an Event of Default must not have occurred in respect of the Client.
- when the Client offer to open any Transaction, the opening of the Transaction must not result in the Client's exceeding any initial or maintenance margin amount, credit or other limit placed on the Client's dealings
- subject to paragraph 7.12, the Company's offer must be given to us during the Trading Hours for the applicable Underlying Asset in respect of which the Client offer to open or close the Transaction.
- the internet connection or communications are not disrupted.
- there is no request of regulatory or supervisory authorities of South Africa or a county court order to the contrary.
- the legality or genuineness of the Order is not under doubt.
- there are Normal Market Conditions; and
- any other reasonable factor that the Company, in the Company's sole discretion, notify the Client from time to time.

Certain third-party companies may make available computerized solutions that facilitate the entry of trading orders or the execution of other activities on the Trading Platform (e.g. "trading robots")

and/or allow for algorithm-based trading ("Robots" and/or "Robot Trading"). The use of any Robots and/or Robot Trading with the Trading Platform is in no way sanctioned by the Company and is at the Client's sole risk and responsibility. The Company makes no representations or warranties about the effectiveness, accuracy, functionality, performance, integrity, freedom-from-error or any other feature of any such Robots or Robot Trading solutions. Clients expressly acknowledge that the use of any Robots or engaging in Robot Trading is extremely risky and hereby absolve the company of liability for any damage caused as a result of the use of Robots and or Robot Trading. Any Transaction completed through the use of a Robot or through Robot Trading shall be considered to have been executed by the Client. The Company is under no obligation to facilitate the use of any Robot or to make available Robot Trading on the Trading Platform.

The Company is under no obligation, unless otherwise agreed in the Agreement, to monitor or advise the Client on the status of any Transaction or to close out any Client's Open Positions. When the Company decides to do so, other than in order to enforce the Negative Balance Protection, this will be done on a discretionary basis and will not be considered an undertaking of an obligation to continue. It is the Client's responsibility to be aware of his/hers positions at all times.

If any Underlying Asset which is a security becomes subject to possible adjustments as a result of any of the events set out in paragraph 6.18 below (referred to as "Corporate Event"), the Company will determine the appropriate adjustment, if any, to be made to the opening/closing price, size, value and/or quantity of the corresponding Transaction (and also the level or size of the corresponding orders). This action is made in order to (i) account for the diluting or concentrating effect necessary to preserve the economic equivalent of the rights and obligations of the parties under that transaction immediately prior to that Corporate Event, and/or (ii) replicate the effect of the Corporate Event upon someone with an interest in the relevant Underlying Asset security, to be effective from the date determined by the Company.

The events to which paragraph 6.17 refers to are any of the following, by the declaration of the issuer of a security:

- a) A subdivision, consolidation or reclassification of shares, a share buy-back or cancellation, or a free distribution of bonus shares to existing shareholders, capitalization or share split or reverse share split or similar event.
- b) A distribution to existing holders of the shares or additional shares, other share capital or securities, granting the right to payment of dividends and/or proceeds from the liquidation of the issuer equally proportionate to such payments to holders of the underlying shares, securities, or warrants granting the right to receive or purchase shares for less than the current market price per share.
- c) Any other event regarding shares analogous to any of the above events or otherwise having a diluting or concentrating effect on the market value of shares.
- d) Any event analogous to any of the above events or otherwise having a diluting or concentrating effect on the market value of any security not based on shares; or
- e) Any event that is caused by a merger offer made regarding the company of the underlying asset.

If any Underlying Asset which is a security becomes subject to a specific risk resulting in a predicted fall in value, the Company reserves the right to restrict short selling or even withdraw the specific Underlying Asset from the Trading Platform.

Determination of any adjustment or amendment to the opening/closing price, size, value and/or quantity of the Transaction (and/or level or size of any order) shall be at the Company's sole

discretion and shall be conclusive and binding upon the Client. The Company shall inform the Client of any adjustment or amendment via its internal mail as soon as is reasonably practicable.

In the case where the Client deliberately attempts to take advantage of the fact that shares in a particular Spot Index going ex-dividend, the Company reserves the right to apply a dividend adjustment in the form of commission without prior notice or consent. In the case of short positions, the dividend adjustment will be debited from the client's account where dividend adjustments = Index Dividend declared x position size in Lots.

Benefits – Takeovers and Transformations (including events such as share consolidations/splits, mergers, takeovers, spinoffs, MBO's, de-listings, etc.). Depending on the circumstances of each event, the Company's policy is to close out any customer open positions at the market price immediately prior to the event taking place. As a result of such event, if any Underlying Asset becomes subject to an adjustment as the result of a takeover or transformation action, the Company shall determine the appropriate adjustment to be made to the contract price or contract quantity as the Company consider appropriate to account for the diluting or concentrating effect of the action. Such adjustment shall represent the economic equivalent of the rights and obligations of us and the Client immediately prior to the action.

ABUSIVE TRADING

The use of any robots, AI, algorithmic trading, or any form of computerized trading code or software with the Trading Platform is strictly prohibited. Any such use is entirely at the Client's own risk, and the Company assumes no responsibility or liability for any resulting losses or damages. The Company makes no representations or warranties regarding the accuracy, functionality, performance, or reliability of any robots or algorithmic trading solutions, and expressly disclaims any liability for errors, malfunctions, or failures associated with their use.

The Client acknowledges that the use of robots or algorithmic trading is highly risky and that any such activity constitutes a material breach of this Agreement. In the event the Company, in its sole discretion, reasonably suspects that a Client is utilizing any form of AI, algorithmic trading, or computerized trading software in connection with their account, this shall constitute an immediate act of default. As a result, the Company shall have the right to take immediate action, including, but not limited to, suspending or terminating the Client's account, freezing any funds, and pursuing any other legal or contractual remedies available referenced in this Agreement or any applicable laws.

Any transaction executed through the use of such prohibited systems will be deemed to have been executed by the Client and will not be considered valid or authorized by the Company.

INSOLVENCY

If a company, whose Underlying Asset forms the CFD goes into insolvency or is otherwise dissolved, the Company shall close any of the Client's open Transactions in CFD of that Underlying Asset. The closing date shall be the date of insolvency.

The Company will use reasonable efforts to execute an Order, but it is agreed and understood that despite the Company's reasonable efforts transmission or execution may not always be achieved at all for reasons beyond the control of the Company.
